Director's Message

Dr Fatma Odaymat
Director

As I write this letter the sun is out, the sky is blue and students and teachers are celebrating their learning experience in the Secondary School while Year 6 students presented a memorable Exhibition and our primary students led a wonderful conference with their parents.

This has been a truly amazing year, which I have thoroughly enjoyed. This year has been full of hard work and has been a massive learning experience for all of us as we implemented new strategies and interventions in every classroom in addition to celebrating many events as one community, one family. We have all improved extensively our skills through training and collaboration in addition to participating in many fun and exciting projects that take us closer to our dream of becoming a Center of Excellence in Education in Ghana.

We are truly fortunate to have such a wonderful group of children at Al-Rayan International School. My friends and family often laugh at me when I refer to them as "my babies" but I cannot deny that every child has touched my life and this school in many ways.

Parents, it has been my pleasure getting to know not only your child, but you as well. Having parental support and open lines of communication is an essential part of any successful school year. Thank you for all you have done to make our year so fulfilling and memorable.

To our first graduating students, ARIS Class of 2017, I would like to quote Maya Angelou and say:

"When you walk out of my door, don't let anybody raise you–you've been raised.

You know right from wrong.

In every relationship you make, you'll have to show readiness to adjust and make adaptations.

Remember, you can always come home.

You will go home again when the world knocks you down–or when you fall down in full view of the world. But only for two or three weeks at a time. Your mother will pamper you and feed you your favorite meal of red beans and rice. You'll make a practice of going home so she can liberate you again–one of the greatest gifts along with nurturing your courage, that she will give you.

Be courageous, but not foolhardy.

Walk proud as you are"

At this stage of your life, it is very important that you take charge of your future, not to feel like you're a victim of circumstance or fate, but that you are an active participant in your future. Where you choose to focus your time and energy will directly impact what comes to you later in life. I encourage you to work hard, set goals for your life, and stay focused on those goals. Do not forget, we are all lifelong learners and I hope every day will be rich in self-discovery.
We have great pride and love for each one of you and we will miss you dearly. Do not forget us and stay in touch.

To all Staff and students I would like to thank you for a wonderful year. I hope you have a fantastic summer.
Sincerely,

Dr Fatma Odaymat
